# BEHAVIOR PERSONAL EDUCATION PLAN

**When addressing this problem, please consider the following questions:**

1. When is the problem behavior(s) most likely to occur?

On particular days of the week or times

During or after interactions with certain people, during small groups

During certain types of activity or tasks? During apparent difficult or easy work

In connection with particular features of the physical environment

Features of routine (when there are unexpected changes or when a preferred activity is cancelled)

Medical or physical factors (apparent hunger, sleep)

Other influences?
