The purpose of the Report Card Rating Details report is to describe the rating methodology and display the data used by the school accountability system to determine the overall school rating that is shown on each school's Report Card. The Oregon Department of Education (ODE) piloted the school accountability system in 2011-2012 to identify Priority, Focus, and Model schools as part of the ESEA Waiver. For more details on the school report cards, please visit the following link: <http://www.ode.state.or.us/go/schoolRC>.

Overall Level: Level 3

Performance Indicator	Level	% of Points Earned	Weight	Weighted Points
Academic Achievement (page 3)	Level 4	70.0%	20	14.0
Academic Growth (page 4)	Level 4	80.0%	20	16.0

			Totals**	63.7
			Weighted Percent	63.7%

[^] Schools that have Level 1 for Graduation can have an Overall Level no higher than Level 2.
* Schools do not receive points for participation. However, a school's overall Level is lowered by one level for each consecutive year that it did not meet all participation targets, starting in 2012-13.
** Schools may not be eligible for all possible points. Schools are not rated in categories where they do not meet minimum student count requirements.

Level Assignment	Weighted Percent
Level 5	87.0 or above
Level 4	70.0 to 86.9
Level 3	47.0 to 69.9
Level 2	26.5 to 46.9
Level 1	Less than 26.5

Levels are calculated using the percentage of points earned out of the total points eligible. For schools with data on all indicators, the total points possible are:

- 20 for Academic Achievement
- 20 for Academic Growth
- 10 for Subgroup Growth
- 35 for Graduation
- 15 for Subgroup Graduation

The total score is matched to the scoring guide above to determine the school rating.

The Academic Achievement indicator rating reflects the percent of all students that meet or exceed standards on the state reading and mathematics assessments at all tested grades in the school. Note that, despite their display below, the Academic Achievement indicator rating does not include subgroup data as described in Oregon's ESEA Waiver.

The Academic Growth indicator uses the Colorado Growth Model to measure student growth in reading and mathematics as compared to academic peers (i.e., students throughout the state who have a similar reading or math test score history). Oregon adopted this growth model as part of the process of obtaining a waiver from some of the requirements of the No Child Left Behind Act (NCLB). This growth model provides a more complete picture of student performance and will help provide a better evaluation of school effectiveness.

Growth Level Cutoffs	
Level	Median Growth Percentile
Level 5	65 & above
Level 4	50 to 64.5
Level 3	40 to 49.5
Level 2	35 to 39.5
Level 1	Less than 35

The growth model looks at a student's growth as compared to that of his/her academic peers with a similar test score history. The Growth Model subsequently expresses student growth as a percentile. For example, a growth percentile of 50 would indicate that a student had average growth compared to all other students in the state with similar prior test scores. A growth percentile of 80 would indicate that a student's growth was as high or higher than 80 percent of his/her academic peers.

The school accountability system uses the median growth percentile which represents "typical" growth at the school. As shown below, this median growth percentile is the basis for the Academic Growth ratings for reading and mathematics.

Academic Growth	Level	2012-13		2013-14		Combined Median Growth Percentile
		Students	Median Growth Percentile	Students	Median Growth Percentile	
Reading (All Students)	Level 4	147	57.0	174	62.5	59.0
Mathematics (All Students)	Level 4	146	50.0	174	57.0	54.0

Data notes:

Not Rated Subgroup did not meet minimum size requirement in order to receive a rating

* Fewer than 6 students with growth percentiles. Data is suppressed to protect student confidentiality.

The Subgroup Growth indicator measures the growth of historically underserved student subgroups. It disaggregates the Academic Growth indicator and reflects the growth for economically disadvantaged, limited English proficient, students with disabilities, and historically underserved races/ethnicities. To receive a Subgroup Growth indicator rating, a subgroup must meet the minimum size requirement for the Academic Achievement indicator rating (i.e., 40 tests in the last two years combined) and have at least 30 students with growth percentiles.

The Graduation indicator uses four- and/or five-year cohort graduation rates. These rates follow incoming high school students for four or five years to determine the percent of students who graduate with a regular diploma in that timeframe. A school year's cohort consists of students who first enrolled in high school in that school year. Students are added to a school's cohort when they transfer into the school, and are removed from a school's cohort if they transfer to another high school. Students that drop out or otherwise leave a school without transferring to another diploma-granting school remain members of the cohort in which they were last enrolled.

Graduation Level Cutoffs		
Level	Four-Year Rate	Five-Year Rate
Level 5	87.5 & above	90.1 & above
Level 4	74.0 to 87.4	78.1 to 90.0
Level 3	69.0 to 73.9	74.0 to 78.0
Level 2	60.0 to 68.9	60.0 to 73.9
Level 1	Less than 60.0	Less than 60.0

To receive a Graduation indicator rating, a school must have at least 40 students in the combined cohort. The following provides a description of the rating levels:

- Level 5: the school had a graduation rate that was in the top ten percent of all high schools in the state.
- Level 4: the school had a graduation rate that was above average, but not in the top ten percent.
- Level 3: the school met the state minimum target, but still had a graduation rate that was below average.
- Level 2: the school met the federal minimum target, but not the state minimum target.
- Level 1: the school did not meet the federal minimum target. Schools that are Level 1 for both their four-year and five-year rates can have an overall rating no higher than Level 2.

The rating for the Graduation indicator (as shown on page 2) is the higher of the school's levels for the four-year and five-year rates.

The terms "Prior Cohorts" and "Current Cohorts" apply to small schools that require four years of graduation data to receive school ratings.
> Prior Cohorts include student data from the first two years of a given four year cycle (e.g., 2011 and 2012 of 2011-2014 range).
> Current Cohorts include student data from the last two years of a given four year cycle (e.g., 2013 and 2014 of 2011-2014 range).

The Subgroup Graduation indicator uses the graduation rates of historically underserved student subgroups. It disaggregates the four- and five-year graduation rates for economically disadvantaged, limited English proficient, students with disabilities, and historically underserved races/ethnicities. The rating for the Subgroup Graduation indicator is the higher of the ratings for the four-year rate and the five-year rate.

All students enrolled on the first school day in May must take a statewide assessment. The tables below display the percentage of students who took a statewide assessment by school year, subject, and subgroup. The tables also indicate whether each subgroup met the federal participation rate target of 94.5%. The overall school rating as well as the Academic Achievement, Academic Growth, and Subgroup Growth indicator ratings depend upon student test scores. These ratings are valid only when schools uniformly test all students. As a result, schools with one or more subgroups missing the participation target will receive a reduction in their overall school rating by one Level.

The tables below display the Smarter Balanced field test and OAKS participation rates by grade and subject, and are only applicable to schools that administered the field test in 2013-14. The OAKS participation rate must be at least 94.5% in each field test grade and subject to include OAKS scores in the Academic Achievement, Academic Growth, and Subgroup Growth indicators.

Field test schools may choose to appeal the inclusion or exclusion of OAKS scores. In the event of a successful appeal, the "Include OAKS" field below will reflect the result of the appeal (either the inclusion or exclusion of OAKS scores) regardless of the OAKS participation rate. The Academic Achievement, Academic Growth, and Subgroup Growth indicators will reflect the inclusion or exclusion of OAKS scores based on the successful appeal.
