

FROM THE PRINCIPAL

Dear Parents and Community Members,

This report card is issued by the Oregon Department of Education. It provides a detailed picture of what John Tuck Elementary School offers to our students.

During the 2014-15 school year we implemented Common Core State Standards aligned curriculum in both reading and math, extended reading intervention school wide to all students K-5, increased the number of community partnerships and after school enrichment opportunities, increased our school wide attendance rate, implemented new PBIS systems, and increased our technology offerings to all students. Our Smarter Balanced assessment results were above the state average for

those student subgroups that have traditionally been underserved and we learned much about the need to help our students develop persistence and grit when completing the Smarter Balanced assessment. We will continue our extensive school improvement efforts to ensure we are preparing our students to be successful academically, socially and emotionally. At John Tuck we believe it is our duty and are committed to providing every student the support, love and encouragement they need to grow and be their best selves!

Thank you,

Principal | Dusty Porter

STUDENTS

OVERALL SCHOOL RATING HOW ARE STUDENTS AT THIS SCHOOL PERFORMING COMPARED TO THOSE AT OTHER SCHOOLS?

The overall school rating is intended to summarize this school's particular successes and challenges. It is based on a combination of up to five factors. Three of these factors come from standardized test scores in reading and math: student achievement, student growth, and the growth of underserved subgroups. Please note that this rating is based mainly on high-stakes testing and, accordingly, doesn't represent a complete view of your school's performance. Other aspects of this report card are designed to put this rating in the proper context.

The U. S. Department of Education has given the State of Oregon approval to temporarily suspend the assignment of school ratings during the transition from the Oregon Assessment of Knowledge and Skills (OAKS) to the new college and career readiness assessments. Schools will not receive an overall school rating on this report card and will receive a new overall school rating on the 2015-16 school report cards.

SCHOOL PERFORMANCE

Performance of students enrolled in the school for a full academic year

Did at least 95% of the students at this school take required assessments? Yes No, Interpret Results with Caution
Participation rate criteria are in place to ensure schools test all eligible students.

The Smarter Balanced and alternate assessments have four performance levels where levels 3 and 4 are meeting the standard for school and district accountability.
