

FROM THE PRINCIPAL

Dear Parents and Community Members,

This report card is issued by the Oregon Department of Education. Obsidian Middle School is committed to providing a quality education for all students and working hard to ensure that our students are college and career ready. Smarter Balanced is a new test aligned to our higher standards. The tests challenge students, go beyond multiple-choice, and provides all students the opportunity to demonstrate what they know and can do. The scores of this test represent a new baseline and provide honest information about what our students know and can do. This information is used as one of many data points when collaborating in teams, designing relative lesson plans, and providing meaningful formative and summative assessments. Our goal is to provide opportunities that allow students to grow both academically and individually. Student growth is our top priority and we have implemented resources to help students reach their true potential. Obsidian Middle

School utilizes the common core standards in all content areas when designing lessons and assessments. Computer software programs are available for intervention and enrichment in both Math and English Language Arts. Strategy classes target students in 6th-8th grade who struggle in Math and English Language Arts. Students can also take Advanced Math classes in both 7th and 8th grade. Obsidian's Wolf Pack works hard to create programs and find resources to meet the needs of every single student that enters our doors. You can help by communicating with your student's teachers, monitoring your student's academic progress (through ParentVUE), and supporting us with an "ALL IN-CAN DO" attitude. We look forward to partnering with you to make success possible for your student!

Thank you,
Principal | Tami Nakamura

STUDENTS

OVERALL SCHOOL RATING HOW ARE STUDENTS AT THIS SCHOOL PERFORMING COMPARED TO THOSE AT OTHER SCHOOLS?

The overall school rating is intended to summarize this school's particular successes and challenges. It is based on a combination of up to five factors. Three of these factors come from standardized test scores in reading and math: student achievement, student growth, and the growth of underserved subgroups. Please note that this rating is based mainly on high-stakes testing and, accordingly, doesn't represent a complete view of your school's performance. Other aspects of this report card are designed to put this rating in the proper context.

The U. S. Department of Education has given the State of Oregon approval to temporarily suspend the assignment of school ratings during the transition from the Oregon Assessment of Knowledge and Skills (OAKS) to the new college and career readiness assessments. Schools will not receive an overall school rating on this report card and will receive a new overall school rating on the 2015-16 school report cards.

SCHOOL PERFORMANCE

Performance of students enrolled in the school for a full academic year

Did at least 95% of the students at this school take required assessments? Yes No, Interpret Results with Caution
Participation rate criteria are in place to ensure schools test all eligible students.

The Smarter Balanced and alternate assessments have four performance levels where levels 3 and 4 are meeting the standard for school and district accountability.
